

# Electrical Options

## Rigid Attachment

## Expandable Comfort Device Attachment

Buckles manufactured by LifeGuard Technologies®, a division of IMMI, offer electrical switch capabilities that can be integrated with machine safety systems. The use of electrical indicators can help operators remember to latch their seat belts before commencing work. LifeGuard provides numerous switch, harness and connector options to meet the requirements of every machine application.

- Sealed switch for damp environments, IP67 rating
- Compatible with a variety of LifeGuard harness and connector options
- Field proven
- Available with end-release buckles
- Available on Comfort Ride products
